The “*Buzzy Bee*”
Fundraising Package

Hello Fundraiser!

Thank you for thinking of us when thinking about your fundraising opportunities, we are excited to help you with your mission while also delivering quality 100% pure raw Canadian honey and beeswax to you and those around you! Paradis Honey Ltd. is here to help you in any way we can. Please contact us using the information above if you have any questions after reading this package.

We provide three options for you to use for your fundraising. Please review the following options to find the one that best suits you and your goals. We encourage you to share your goals and the expected closing date with us as soon as possible so we can best serve your needs! Following the fundraiser options is an example of our product order form, your sales earning potential, and the benefits and uses for honey.

We hope to hear from you soon!

Best Regards,

Michael and Lise Paradis

Our options for you...

Option #1 – Collect Orders

With this option, the fundraising party would collect honey and candle orders several weeks before the end date and collect payment from those who have placed an order. After all orders and payments have been collected by the fundraisers, all forms and total sum of payment would be given to us. We will then deliver the product to you free of charge, for you to disperse to those who have made orders, and you will also receive a cheque of 40% of the profit earnings.

Option #2 – Pre-Purchase

This option entails you making a pre-purchase of **X amount of product**, and we immediately send you the products along with your cheque for 40% of your profit earnings. With this option, you can sell what you have on hand.

Option #3 – Combination

This combination of honey and beeswax entails for you to pre-purchase some product for immediate sale so you can continue to take orders from those around you!

Sales Earning Potential

Honey Container = 500g

Value: \$240 / 24 containers (= 1 case)

Candle – 5.5”L x 3”D

Value: \$480 / 24 candles (= 1 case)

Honey and Candle

5 cases	\$480.00	\$960.00	\$600.00
10 cases	\$960.00	\$1,920.00	\$1,200.00
15 cases	\$1,440.00	\$2,880.00	\$1,800.00
20 cases	\$1,920.00	\$3,840.00	\$2,400.00
30 cases	\$2,880.00	\$5,760.00	\$3,600.00

Honey and Wax Benefits and Uses

What does “raw” mean?

The word “raw” is associated with the preservation of essential vitamins, minerals, and enzymes. At Paradis Honey Ltd, our raw honey is simply nectar from local flowers that is pure, unheated, unpasteurized, and unprocessed. We keep our honey in its natural state, thereby you can gain the various natural benefits of its unique blend of vitamins, minerals, digestive enzymes, antioxidants and phytonutrients!

Raw Honey

Raw honey has anti-viral, anti-bacterial and anti-fungal properties. It promotes digestive health, is a powerful antioxidant, strengthens the immune system and is an excellent remedy for skin wounds and other types of infections.

Some ways to you can use our honey to sweeten up your life is by naturally sweetening your coffee and tea, enjoying it by the teaspoon full, add a tablespoon when cooking your vegetables, substitute honey in your baking, add it in your smoothies, and many more ways!

1/3 cup		3 tbsp
½ cup		1/3 cup
1 cup		¾ cup
2 cups		1.5 cups

Benefits of Beeswax

Beeswax has been around for as long as the honey bee. It is produced by honey bees to build the honeycomb walls. This natural wax has been used for many things over the years including, but not limited to, cosmetics, skin care products and candles. There are several benefits associated with the different uses of beeswax.

Burning Beeswax Candles

When beeswax is burned, it emits negative ions in the air. These negative ions help rid the air of pollen, dust, mold, toxins and many other pollutants. This feature makes beeswax candles ideal for people with allergies. It has been scientifically proven that the only fuel known to mankind to produce a fully balanced negative ion is pure, unadulterated beeswax.

Smokeless Candles

Another plus is that beeswax candles do not produce smoke when they burn. They also burn much slower than other candles, making them much more cost efficient.

TOP BEESWAX BENEFITS & USES

Skin Enhancer

Beeswax inhibits the growth of bacteria, which can prevent and treat skin conditions like dermatitis, psoriasis and eczema.

Skin Moisturizer

It helps protect and repair rough, dry or chapped skin because it has the ability to lock in moisture.

Liver Protector

Beeswax helps normalize liver function and improve symptoms of fatty liver disease.

Cholesterol Stabilizer

Its compounds lower bad cholesterol and raise good cholesterol.

Pain Reliever & Anti-Inflammatory

Its anti-swelling effects help reduce inflammation and relieve pain.

Acne Treatment

It has strong antiseptic, healing and anti-inflammatory properties making it effective in the treatment of acne.

Lip Healer

The natural moisturizers in beeswax make it the perfect lip balm to heal dry, cracked lips.

Stretch Mark Eliminator

The vitamin A in beeswax helps produce collagen, which fights stretch marks.

Jock Itch & Fungal Skin Infection Reliever

It helps reduce inflammation, pain and itching associated with fungal infections.

Relaxer

Beeswax candles are great aromatherapy agents.
